

# MUSIC NOTES

FEBRUARY 2018

**Overview/Concepts:** This month we will be focusing on sequencing. This is found in music when certain sections of music are repeated but changed or added on to...like the *The Silly Pirate Song*.

**Instrument:** We will be playing the drums again this month. We will be using both our hands and a stick (or two) to play the drums. We will also use the sound of different heart beats to keep the beat!

**Movement:** We will be dancing to some fun Valentine's Day songs!

**In addition to the above for Kindergarten:** We will be working with finger cymbals. This instrument makes a beautiful sound and really allows children to focus on fine motor skills!
